-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --  
**Period for Reply**

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

## DETAILED ACTION

### *Priority*

Receipt is acknowledged of papers submitted under 35 U.S.C. 119(a)-(d), which papers have been placed of record in the file.

### ***Claim Rejections - 35 USC § 102***

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 8-14 are rejected under 35 U.S.C. 102(b) as being anticipated by Brickman US patent 2,660,406.

Claim 1 recites “Sclerophyllic mesh”, which has been referenced as a synonym for “barbed wire” by applicant in the instant specification.

Brickman clearly discloses a barbed wire and therefore “Sclerophyllic mesh” as defined by applicant.

Brickman clearly discloses the term ‘electrowelded’ as this is a product by process limitation. The Brickman mesh recites ‘welded’ wire. The MPEP has established that once the examiner has shown an essentially identical product that a 102 or 103 rejection is proper and that the burden has shifted to applicant to prove that the recited process steps result in a different structure than that of the prior art.

Figures clearly show barbs (sharp points) on the mesh as claimed. Brickman discloses an embodiment welding the barbs to the welded wires as in claims.

Figure 10 and 11 show an embodiment where the barbs are joined to the wire intersections 38, extend obliquely and perpendicularly (since no point of reference is given to determine the angles), curved and straight barbs in figure 7, fence mesh shapes other than square in figure 10, barbs from one side in figure 7 and from both sides in figure 3, as claimed.

### ***Response to Arguments***

Applicant's arguments filed 12/31/2007 have been fully considered but they are not persuasive.

Applicant has not overcome the burden of evidence with regard to product-by-process limitation "electrowelded" resulting in a materially different product than a "welded" mesh.

All other claims are new.

Since these are the arguments presented and newly amended claims are also disclosed by the prior reference the rejection remains and is considered to be proper.

***Conclusion***

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the date of this final action.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to **BOBBY H. MUROMOTO JR** whose telephone number is (571)272-4991. The examiner can normally be reached on 8-530, M-F.
